

MOMS AND BABIES NEED YOU. NOW MORE THAN EVER.

**HEALTHY
MOMS.
STRONG
BABIES.**

WE NEED YOUR VOICE IN THE FIGHT FOR THE HEALTH OF ALL MOMS AND BABIES.

We imagine a world where every mom and baby is healthy regardless of wealth, race, gender or geography. Unfortunately not all babies get one. The U.S. remains among the most dangerous Developed nations for childbirth. March of Dimes needs your help in shining a spotlight on the maternal and infant health crisis this Prematurity Awareness Month and on November 17, World Prematurity Day.

Each and every day in the U.S., two women die due to complications from pregnancy and childbirth, and two babies die every hour. The majority are women and babies of color and Black women and babies are most affected.

33,000 Babies will be born Preterm this Month.

HELP US CHANGE THESE OUTCOMES FOR FAMILIES THROUGH DATA INFORMED ADVOCACY.

STATE REPORT CARD

Issued annually, updated to provide a comprehensive view beyond grading states based on preterm birth rates to include infant death, inadequate prenatal care and disparity ratios information and important policy solutions.

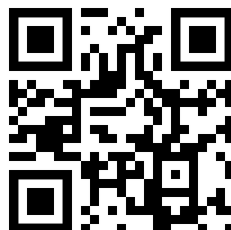

ADVOCATING TO CLOSE THE HEALTH EQUITY GAP

The Black Maternal Momnibus Act of 2021 is a comprehensive legislative package composed of 12 bills that address every dimension of the U.S. maternal health crisis.

We are making significant strides with getting these bills passed, but need your help.
