

FAMILIES NEED YOU TODAY.

WE NEED YOUR VOICE IN THE FIGHT FOR THE HEALTH OF ALL MOMS AND BABIES.

We believe in a world where every mom and baby is healthy regardless of wealth, race, gender or geography. For too many families, that's just not the case. The U.S. remains among the most dangerous developed nations for childbirth. March of Dimes needs your help to shine a spotlight on the maternal and infant health crisis during Prematurity Awareness Month and on November 17, World Prematurity Day.

MOMS NEED YOU

Each day in the U.S., two women die due to complications from pregnancy and childbirth, and two babies die every hour. The majority are women and babies of color and Black women and babies are most affected.

BABIES NEED YOU

33,000 babies will be born preterm this month.

HELP US CHANGE THESE OUTCOMES FOR FAMILIES THROUGH DATA INFORMED ADVOCACY.

STATE GRADES

Our annual March of Dimes Report Cards grade states based on preterm birth rates, and also include infant death, inadequate prenatal care and disparity ratios information and important policy solutions.

ADVOCATING TO CLOSE THE HEALTH EQUITY GAP

The Black Maternal Momnibus Act of 2021 is a comprehensive legislative package composed of 12 bills that address every dimension of the U.S. maternal health crisis.

We're making significant strides with getting these bills passed, but need your help.
